

City of Madisonville

Contractor Registration

As a service to our residents, contractors operating within the City Limits are required to register with the City. At the time of submission, the contractors applicable state license and liability insurance are verified to be current and active. Registration is required annually. The list is published to provide residents options to select contractors that meet their needs. If you are a contractor or know a contractor who is not listed below, please have them contact City Hall at **(936) 348-2748**. Contractor registration is free. This list is updated on or about the 1st and 15th of each month as necessary. Contractors are listed in the order that they are registered.
